Please read this important safety information before you use the device. It contains general safety information for devices and may include content that does not apply to your device. Follow the warning and caution information to prevent injury to yourself or others and to prevent damage to your device

The term 'device' refers to the product and its battery, Ø charger, the items supplied with the product, and any Samsung-approved accessories used with the product

Samsung cannot be responsible for the user's safety when using accessories or supplies that are not approved by Samsung.

- Turn off the device in potentially explosive environments · Turn off your device in potentially explosive environments instead of removing the battery.
- Always comply with regulations, instructions and signs in potentially
- Do not use your device at refuelling points (petrol stations), near fuels or chemicals, or in blasting areas
- · Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device, its parts, or accessories

If you notice strange smells or sounds coming from your device or the battery, or if you see smoke or liquids leaking from the device or battery, stop using the device immediately and take it to a Samsung Service Centre Failure to do so may result in fire or explosion

Comply with all safety warnings and regulations regarding mobile device usage while operating a vehicle

While driving, safely operating the vehicle is your first responsibility. Never use your mobile device while driving, if it is prohibited by law. For your safety and the safety of others, use your common sense a remember the following tips: e and

- Get to know your device and its convenience features, such as speed dial and redial. These features help you reduce the time needed to place or receive calls on your mobile device. Position your device within easy reach. Make sure you can access
- your wireless device without taking your eyes off the road. If you receive an incoming call at an inconvenient time, let your voicer answer it for you
- Suspend calls in heavy traffic or hazardous weather conditions. Rain, sleet, snow, ice, and heavy traffic can be hazardous.
- · Do not take notes or look up phone numbers. Jotting down a "to do list or flipping through your address book takes atte your primary responsibility of driving safely.
- · Dial sensibly and assess the traffic. Place calls when you are not moving or before pulling into traffic. Try to plan calls when your car will be stationary.

- Do not engage in stressful or emotional conversations that may be distracting. Make the person you are talking to aware that you are driving and suspend conversations that could potentially divert your tion from the road
- Care and use your device properly

Keep your device dry

- · Humidity and liquids may damage the parts or electronic circuits in your device
- Do not turn on your device if it is wet. If your device is already on, turn it off and remove the battery immediately (if the device will not turn off or you cannot remove the battery, leave it as-is). Then, dry the device with a towel and take it to a service centre.
- This device has internal liquid indicators fitted. Water damage to your
- device may void the manufacturer's warranty

Store your device only on flat surfaces If your device falls, it may be damaged.

The device can be used in locations with an ambient temperature of 0 °C to 35 °C. You can store the device at an ambient temperature of -20 °C to 50 °C. Using or storing the device outside of the recommended temperature ranges may damage the device or reduce the battery's lifespan

- Do not store your device in very hot areas such as inside a car in the summertime. Doing so may cause the screen to malfunction, result in damage to the device, or cause the battery to explode.
- Do not expose your device to direct sunlight for extended periods of time (on the dashboard of a car, for example).
- · The battery can be stored separately in locations with an ambient nperature of 0 °C to 45 °C Do not store your device with metal objects, such as coins
- keys, and necklaces
- Your device may be scratched or may malfunction
- · If the battery terminals come into contact with metal objects, this may

Do not carry your device in your back pockets or on your waist

· The device may be damaged, explode, or result in a fire if too much pressure is applied to it. You may be injured if you are bumped or fall.

Do not drop or cause an impact to the charger or the device Handle and dispose of the device and charger with care

- · Never dispose of the battery or device in a fire. Never place the battery or device on or in heating devices, such as microwave overs, stoves, or radiators. The device may explode when overheated. Follow all local regulations when disposing of used battery or device. · Never crush or puncture the device.
- · Avoid exposing the device to high external pressure, which can lead to an internal short circuit and overheating
- Protect the device. battery and charger from damage · Avoid exposing your device and battery to very cold or very hot temperatures.
- Extreme temperatures can damage the device and reduce the charging capacity and life of your device and battery.
- Do not directly connect together the battery's positive and negative terminals and prevent them from coming into contact with metal objects. Doing so may cause the battery to malfunction. Never use a damaged charger or battery

Do not store your device near or in heaters, microwaves, hot cooking equipment, or high pressure containers The battery may leak.

· Your device may overheat and cause a fire.

Do not store your device near magnetic fields

device is overheated

to the eyes of people or pets

age to the eyes

malfunction

Your device may malfunction or the battery may discharge from exposure to magnetic fields.

and boarding passes, may be damaged by magnetic fields

Do not use your device or applications for a while if the

Do not use your device with the back cover removed

Use caution when exposed to flashing lights

Prolonged exposure of your skin to an overheated device may cause low temperature burn symptoms, such as red spots and pigmentation

The battery may fall out of the device, which may result in damage o

If your device has a camera flash or light, do not use it close

Using a flash close to the eyes may cause temporary loss of vision or

While using your device, leave some lights on in the room and do not hold the screen too close to your eyes.

Seizures or blackouts can occur when you are exposed to flashing

lights while watching videos or playing Flash-based games for extended periods. If you feel any discomfort, stop using the device

· If anyone related to you has experienced seizures or blackouts while

· If you feel discomfort, such as a muscle spasm, or disoriented, stop

When you repetitively perform actions, such as pressing keys, drawing characters on a touch screen with your fingers, or playing games, you may experience occasional discomfort in your hands, neck, shoulders,

or other parts of your body. When using your device for extended periods, hold the device with a relaxed grip, press the keys lightly, and take frequent breaks. If you continue to have discomford during or after such use, stop using the device and consult a physician.

To prevent eye strain, take frequent breaks while using the device

using the device immediately and consult a physician.

Reduce the risk of repetitive motion injuries

a similar device, consult a physician before using the device

Magnetic stripe cards, including credit cards, phone cards, passbooks

Do not use or store your device in areas with high concentrations of dust or airborne materials

Dust or foreign materials can cause your device to malfunction and may result in fire or electric shock.

- Prevent the multipurpose jack and the small end of the charger from contact with conductive materials, such as liquids, dust, metal powders, and pencil leads Conductive materials may cause a short circuit or corrosion of the terminals, which may result in an explosion or fire.
- Do not bite or suck the device or the battery · Doing so may damage the device or result in an explosion or fire.
- · Children or animals can choke on small parts. · If children use the device, make sure that they use the device properly.

Do not insert the device or supplied accessories into the eyes, ears, or mouth

Doing so may cause suffocation or serious injuries. Do not handle a damaged or leaking Lithium Ion (Li-Ion) battery

For safe disposal of your Li-Ion battery, contact your nearest authorised service centre

Caution

~NV

Failure to comply with safety cautions and regulations can cause injury or property damage

- Do not use your device near other electronic devices Most electronic devices use radio frequency signals. Your device may interfere with other electronic devices. · Using an LTE data connection may cause interference with other
- s, such as audio equipment and telephones

Protect your hearing and ears when using a headset · Excessive exposure to loud sounds can cause hearing damage.

Exposure to loud sounds while walking may distract your attention and cause an accident Always turn the volume down before plugging the earphones into an audio source and use only the minimum volume setting necessary to hear your

conversation or music. In dry environments, static electricity can build up in the headset. Avoid using headsets in dry environments or touch a metal object to discharge

static electricity before connecting a headset to the · Do not use a headset while driving or riding. Doing so

may distract your attention and cause an accident, or may be illegal depending on your region.

Use caution when using the device while walking or moving Always be aware of your surroundings to avoid injury to yourself or

- · Make sure the headset cable does not become entangled in your arms or on nearby objects.
- Do not paint or put stickers on your device · Paint and stickers can clog moving parts and prevent proper
- operation If you are allergic to paint or metal parts of the device, you may experience itching, eczema, or swelling of the skin. When this happens, stop using the device and consult your physician

Do not use the device if it is cracked or broken

Broken glass or acrylic could cause injury to your hands and face. Take the device to a Samsung Service Centre to have it repaired.

Install mobile devices and equipment with caution · Ensure that any mobile devices or related equipment installed in your vehicle are securely mounted.

Avoid placing your device and accessories near or in an airbag deployment area. Improperly installed wireless equipment can cause serious injury when airbags inflate rapidly.

Do not drop your device or cause impacts to your device

 Your device may be damaged or may malfunction · If bent or deformed, your device may be damaged or parts may malfunction

Ensure maximum battery and charger life

· Use the battery only for their intended purposes.

When using the device, mind the following

Do not disassemble or puncture the battery, as this can cause

Turn off the device before removing the battery. If you remove the battery with the device turned on, it may cause the device to

of your device and battery. Damages or poor performance caused by failure to follow warnings and instructions can void your

When cleaning your device, mind the following

- Wipe your device or charger with a towel or an erase
- · Clean the battery terminals with a cotton ball or a towel
- · Do not use chemicals or detergents. Doing so may discolour or corrode the outside the device or may result in electric shock or fire

Do not use the device for anything other than its intended

Your device may malfunction

Avoid disturbing others when using the device in public

Allow only qualified personnel to service your device Allowing unqualified personnel to service your device may result in damage to your device and will void your manufacturer's warranty.

Handle SIM cards, memory cards, or cables with care

- When inserting a card or connecting a cable to your device, make sure that the card is inserted or the cable is connected to the proper side
- Do not remove a card while the device is transferring or accessing information, as this could result in loss of data and/or damage to the card or device.
- Protect cards from strong shocks, static electricity, and electrica noise from other devices
- Do not touch gold-coloured contacts or terminals with your fingers or metal objects. If dirty, wipe the card with a soft cloth.
- · Inserting a card or connecting a cable by force or improperly may result in damage to the multipurpose jack or other parts of the

Ensure access to emergency services

Emergency calls from your device may not be possible in some areas or circumstances. Before travelling in remote or undeveloped areas, plan an alternative method of contacting emergency services personnel.

Protect your personal data and prevent leakage or misuse of information sensitiv

While using your device, be sure to back up important data Samsung is not responsible for the loss of any data

- When disposing of your device, back up all data and then reset your device to prevent misuse of your personal information
- · Carefully read the permissions screen when downloading applications. Be particularly cautious with applications that have access to many functions or to a significant amount of your personal information
- Check your accounts regularly for unapproved or suspicious use.lf you find any sign of misuse of your personal information, contact your service provider to delete or change your account information.
- In the event your device is lost or stolen, change the passwords on your accounts to protect your personal informati
- Avoid using applications from unknown sources and lock your device with a pattern, password, or PIN.

Do not distribute copyright-protected material

Do not distribute copyright-protected material without the permiss of the content owners. Doing this may violate copyright laws. The manufacturer is not liable for any legal issues caused by the user's illegal use of copyrighted material.

Malware and viruses

To protect your device from malware and viruses, follow these usage tips. Failure to do so may result in damages or loss of data that may not be covered by the warranty service

- Do not download unknown applications.
- · Do not visit untrusted websites
- · Delete suspicious messages or email from unknown senders
- Set a password and change it regularly.
- · Deactivate wireless features, such as Bluetooth, when not in use
- · If the device behaves abnormally, run an antivirus program to check for infection
- Run an antivirus program on your device before you launch newlydownloaded applications and files.
- Install antivirus programs on your computer and run them regularly to check for infection
- · Do not edit registry settings or modify the device's operating syst

Specific Absorption Rate (SAR) certification information

THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO RADIO WAVES

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) recommended by international guidelines. The guidelines were developed by an independent scientific organisation (ICNIRP) and include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2.0 W/kg.

Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the ICNIRP guidelines for this device model are

Maximum SAR for this model and conditions under which it was recorded		
Head SAR	0.582 W/kg	
Body-worn SAR	0.262 W/kg	

During use, the actual SAR values for this device are usually well below the values stated above. This is because, for purposes of system efficiency and to minimise interference on the network, the operating power of your mobile device is automatically decreased when full po is not needed for the call. The lower the power output of the device, the lower its SAR value

A body-worn SAR test has been performed on this device at a separation distance of 1.5 cm. To meet RF exposure guidelines during body-worn operation, the device must be positioned at least 1.5 cm away from the body

Organisations such as the World Health Organisation and the US Food and Drug Administration have suggested that if people are concerned and want to reduce their exposure, they could use a hands-free accessory to keep the wireless device away from the head and body during use, or reduce the amount of time spent using the device. For more information, visit www.samsung.com/sar and search for your vice with the model numbe

Correct disposal of this product

(Waste Electrical & Electronic Equipment)

(Applicable in countries with separate collection systems)

This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste.

To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling. Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal

This product is RoHS compliant.

Correct disposal of batteries in this product

(Applicable in countries with separate collection systems This marking on the battery, manual or packaging indicates that the batteries in this product should not be disposed of what the balances in this product state where marked, the chemical symbols Hg, Cd or Pb indicate that the battery contains mercury, cadmium or lead above the reference levels in EC Directive

2006/66. If batteries are not properly disposed of, these substances can cause harm to human health or the environment.

To protect natural resources and to promote material reuse, please separate batteries from other types of waste and recycle them through your local, free battery return system.

Declaration of Conformity

Samsung Electronics declares that this device complies with tial requirements and relevant provisions of Directive 1999/5/FC
