# Instruction symbols

These symbols may appear in the User guide:

| | |
|---|---|
| > | Use a selection or navigation key to scroll and select. See *Navigation* on page 12 |
| ⊙ | Press the centre selection key |
| ⊛ | Press the navigation key up |
| ⊛ | Press the navigation key down |
| ⊛ | Press the navigation key to the left |
| ⊛ | Press the navigation key to the right |
| ❗ | Note |
| ☀ | Tip |
| ⚠ | Warning |

❗ Please read the *Important information* before you use your mobile phone.

# Preparing the phone

## SIM card

The SIM (Subscriber Identity Module) card, which you get from your network operator, contains information about your subscription. Always turn off your phone and detach the charger and battery (if inserted) before you insert or remove the SIM card.
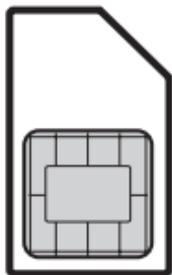

## PIN

You may need a PIN (Personal Identification Number) to activate the services and functions in your phone. Your PIN is supplied by your network operator. Each PIN digit appears as *, unless it starts with emergency number digits, for example, 112 or 911. You can see and call an emergency number without entering a PIN.

> If you enter the wrong PIN three times in a row, the SIM card is blocked. See *SIM card lock* on page 34.

To remove the SIM card
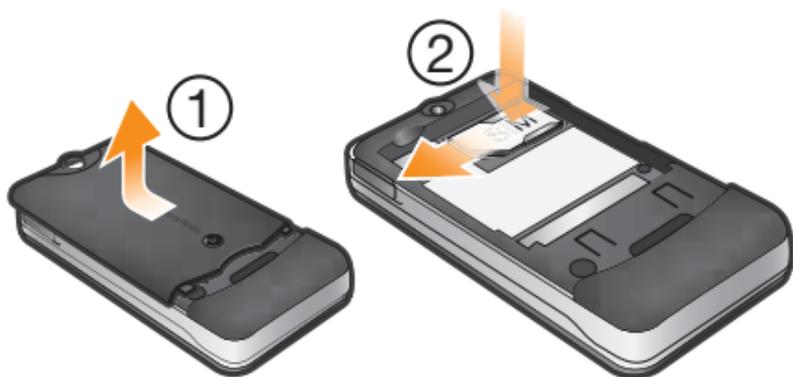

**1** Press the centre of the battery cover and slide to remove it. Remove the battery, if inserted.

**2** Press the right edge of the SIM card and slide to remove it.

! Do not use any sharp objects to remove the battery cover.

! See the illustrations on your phone box for how to insert the SIM card and battery.

# Memory card

Your phone supports Memory Stick Micro™ (M2™) memory card up to 2 GB, adding more storage space to your phone. It can also be used as a portable memory card with other compatible devices. You can move content between a memory card and the phone memory.

! You may have to purchase a memory card separately.

-ᆑ- We recommend that you install Java™ applications in the phone memory.

To insert a memory card

1. Open the cover of the memory card slot.
2. Insert the memory card with the gold-coloured contacts facing down.

1. Open the cover of the memory card slot.
2. Press the edge of the memory card to release and remove it.

# Turning on the phone

1. Press and hold down ⟨☎⟩.
2. Open the slider and enter your PIN, if requested.
3. Select **OK**.
4. Select a language.
5. Select **Yes** to use the setup wizard.

! If you make a mistake when you enter your PIN, you can press ⟨C⟩ to delete numbers from the screen.

## Standby

After you have turned on the phone and entered your PIN, the name of the network operator appears. This view is called standby. You phone is now ready for use.

• Press and hold down ⟨☎⟩.

! Before turning off the phone, you must return to standby.

# Phone overview

| 16 | Loudspeaker |

# Screen icons

These icons may appear on the screen.

| Icon | Description |
|------|-------------|
|  | Missed call |
|  | Handsfree connected |
|  | Ongoing call |
|  | Text message received |
|  | Multimedia message received |
|  | Predictive text input activated |
|  | Phone set to silent |
|  | Radio playing |
|  | Alarm activated |
|  | Bluetooth™ function activated |

# Network coverage

The network bars show the strength of the GSM network in your area. You should move to another location if you have problems calling and network coverage is poor. **No network** means you are not in range of a network.

- ▪▪▪▪ = Good network coverage
- ▪▪▫▫ = Average network coverage

## Battery status

- ▭▬▬ = The phone battery is fully charged
- ▭▭▭ = The phone battery is empty

## To charge the battery

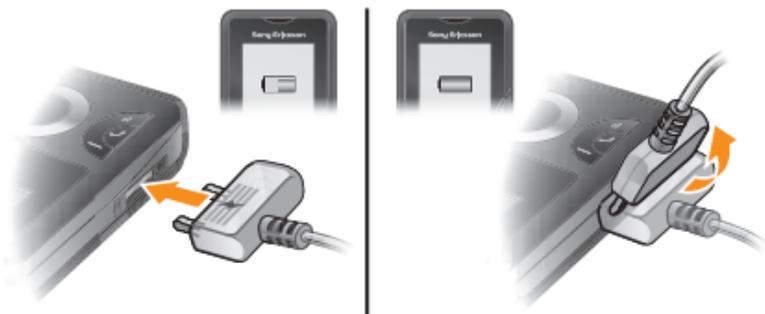

**1** Connect the charger to the phone with the power icon on the charger facing upwards. It takes approximately 3 hours to fully charge the battery. Press a key to view the screen.

**2** To remove the charger, tilt the plug upwards.

! The phone battery is partly charged when you buy it. It may take a few minutes before the battery icon appears on the screen.

-ᗦ́- You can use your phone while it is charging. You can charge the battery at any time and for more or less than 3 hours. You can interrupt the charging without damaging the battery.

subscription-dependent.
** You can use the
navigation key to scroll
between tabs in
submenus.
*** Multiple phonebook
mode with tabs.

# Navigation

The main menus are shown as icons. Some submenus include tabs.

To access the main menu
• When **Menu** appears on the screen, press the centre selection key to select **Menu**.
• When **Menu** does not appear on the screen, press the end key and then press the centre selection key to select **Menu**.

To navigate the phone menus
**1** Press ⊙ to select **Menu**.
**2** Press ⊙, ⊙, ⊙ or ⊙ to move through the menus.

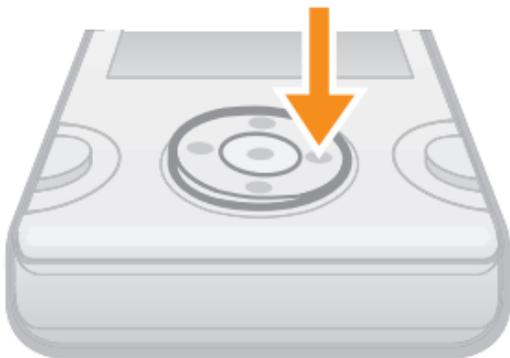

To select an item
• Scroll to the item and press ⊙.

To scroll between tabs
• Press ⊙ or ⊙ to go to a tab.

### To go back one step in the menu
• Select **Back**.

### To end a function
• Press 🔴.

### To return to standby
• Press 🔴.

### To delete an item
• Scroll to the item and press ⬛c⬛.

## Shortcuts
You can use the navigation key shortcuts from standby or use the shortcut menu to get quick access to certain functions.

### To use navigation key shortcuts
• Press ⬤, ◐, ◓ or ◓ to go directly to a function.

### To edit a navigation key shortcut
• Select **Menu** > **Settings** > **General** > **Shortcuts**.

❗ The WALKMAN shortcut cannot be changed.

### To open the shortcut menu
• Press ⬛⬛.

### To add a shortcut
**1** Press ⬛⬛.
**2** Scroll to **New shortcut** and select **Add**.

### To delete or move a shortcut
**1** Press ⬛⬛.
**2** Scroll to a shortcut and select **Options**.
**3** Select an option.

## To set the phone to silent

• Press and hold down ⟨#⟩.

# Entering text

You can use multitap text input or Zi™ text input to enter text. The Zi text input method uses a built-in dictionary.

🔆 By using the Zi text input you only have to press each key once. Continue writing a word even if it appears to be wrong.

## To enter text using Zi text input

**1** For example, to write the word "Jane", press ⟨5⟩, ⟨2⟩, ⟨6⟩, ⟨3⟩.
**2** You now have several options:
- If the word shown is the one you want, press ⟨0⟩ to accept and add a space. To accept a word without adding a space, press ⊙.
- If the word shown is not the one you want, press ⊙ or ⊙ repeatedly to view alternative words. To accept a word and add a space, press ⟨0⟩.
- To enter full stops and commas, press ⟨1⟩ and then ⊙ or ⊙ repeatedly.

## To enter text using multitap

• Press ⟨2⟩ – ⟨9⟩ until the character you want appears.
• Press ⟨0⟩ to add a space.
• Press ⟨1⟩ to enter punctuation marks.

## To use the keys when entering text

• To change text input method, press and hold down ⟨*⟩.
• To change writing language, press and hold down ⟨#⟩.

**14**

- To shift between upper-case letters, lower-case letters and numbers, press (#\u00aB).
- To delete characters, press ⌫.
- To delete a whole word, press and hold down ⌫.
- To enter numbers, press and hold down (0-) – (9).

<span style="color:orange">To add a word to the dictionary</span>
**1** When you enter text using Zi text input, select **Options** > **Spell word**.
**2** Enter the word using multitap and select **Save**.

# Calling

You must turn on the phone and be within range of a network.

<span style="color:orange">To make a call</span>
**1** Enter a phone number (with international country code and area code, if applicable).
**2** Press 📞.

💡 You can call numbers from your contacts and call list. See *Contacts* on page 17, and *Call list* on page 16.

<span style="color:orange">To end a call</span>
- Press 📞.

<span style="color:orange">To answer a call</span>
- Press 📞.

<span style="color:orange">To reject a call</span>
- Press 📞.

### To change the ear speaker volume during a call
• Press the volume key up or down.

### To turn off the ringtone without answering a call
• Press the volume key up or down.

### To turn on the loudspeaker during a call
• Select **SpkrOn**.

⚠️ **Do not hold the phone to your ear when using the loudspeaker. This could damage your hearing.**

### To make an international call
1 Press and hold down ⊛ until a "+" sign appears.
2 Enter the country code, area code (without the first zero) and phone number.
3 Press 📞.

## Call list
You can view information about recent calls.

### To call a number from the call list
1 Press 📞.
2 Scroll to a name or a number and press 📞.

### To clear the call list
1 Press 📞.
2 In the **All** tab, select **Options** > **Delete all**.
3 To confirm, select **Yes**.

## Emergency calls
Your phone supports international emergency numbers, for example, 112 or 911. You can normally use these numbers to make emergency calls in any country, with or without the SIM card inserted, if you are within range of a network.

### To make an emergency call

- Enter 112 (the international emergency number) and press 📞.

⚠ In some countries, other local emergency numbers may also be promoted. Your network operator may have saved these numbers on the SIM card.

# Contacts

You can save names, phone numbers and personal information in **Contacts**. Information can be saved in the phone memory or on the SIM card.

## Default contacts

You can choose which contact information is shown as default. If **Phone contacts** is selected as default, your contacts show all the information saved in **Contacts**. If you select **SIM contacts** as default, your contacts show names and numbers saved on the SIM card.

### To select default contacts

**1** Select **Contact** > **Options** > **More** > **Advanced** > **Default contacts**.
**2** Select an option.

## Contact memory status

The number of contacts you can save in your phone or on the SIM card depends on available memory.

### To view contact memory status

- Select **Contact** > **Options** > **More** > **Advanced** > **Memory status**.

# Phonebook mode

When **Phone contacts** is selected as default contacts, you can choose between two phonebook modes:

- **Normal** – only one phonebook. You can select this mode if the phone is used by one person only.
- **Multi phonebook** – one shared phonebook and four individual phonebooks. These appear as tabs. Contacts in the shared phonebook are displayed in each individual phonebook. Contacts in an individual phonebook can be shown in only one or in several individual phonebooks. You can select this mode if the phone is used by more than one person.

❗ See the phonebook setup wizard for first time use. The setup wizard will appear again if being ignored.

### To change phonebook mode
1 Select **Contact** > **Options** > **More** > **Phonebook mode**.
2 Select an option.

❗ In **Multi phonebook** mode, the phonebook you last used is the default phonebook when you open **Contacts**. When **Normal** mode is activated, all the contacts in **Multi phonebook** mode are displayed. When **Normal** mode is changed to **Multi phonebook** mode, all the contacts in the **Normal** mode are saved in **Shared ph. book**.

### To rename a phonebook in multiple phonebook mode
1 Select **Options** > **More** > **Rename phonebk**.
2 Scroll to an individual phonebook and select **Edit**.
3 Enter a new name and select **OK**.

❗ The shared phonebook cannot be renamed.

# Phone contacts

Phone contacts can contain names, phone numbers and personal information. They are saved in the phone memory.

**!** If you enter the + sign and country code in all phonebook numbers, you can use them abroad and at home. See *To make an international call* on page 16.

To add a phone contact in normal phonebook mode

1 Select **Contact** > **New contact**.
2 Select **Last name:**, enter the last name and select **OK**.
3 Select **First name:**, enter the first name and select **OK**.
4 Select **New number:**, enter the number and select **OK**.
5 Select a number type.
6 Scroll between tabs and select the fields to add information.
7 Select **Save**.

**!** Make sure you select **Phone contacts** as **Default contacts** when adding a phone contact.

To add a phone contact in multiple phonebook mode

1 Select **Contact** > **New contact**.
2 Select **Last name:**, enter the last name and select **OK**.
3 Select **First name:**, enter the first name and select **OK**.
4 Select **Contact properties:**, mark the phonebooks where you want the contact to appear and select **Save**.
5 Select **New number:**, enter the number and select **OK**.
6 Select a number type.
7 Scroll between tabs and select the fields to add information.
8 Select **Save**.

**!** Make sure you select **Phone contacts** as **Default contacts** when adding a phone contact.

### To call a contact
**1** Select **Menu** > **Contacts**.
**2** If you are in Multiple phonebook mode, scroll to a phonebook.
**3** Scroll to, or enter the first few letters of, the contact.
**4** Press ⌔.

### To edit a phone contact
**1** Select **Contact**.
**2** Scroll to a contact and select **Options** > **Edit contact**.
**3** Scroll between the tabs, edit information and select **Save**.

### To copy contacts to or from the SIM card
**1** Select **Contact** > **Options** > **More** > **Advanced**.
**2** Select **Copy to SIM** or **Copy from SIM**.

# Messaging

## Text messages (SMS)
You must have a valid service centre number in your phone. This is supplied by your service provider and saved on the SIM card. You may have to enter the number yourself.

### To write and send a text message
**1** Select **Menu** > **Messaging** > **Write new** > **Text message**.
**2** Write the message and select **Cont.** > **Contacts look-up**.
**3** Select a recipient and select **Send**.

### To view a received text message
• When  **From:  Text message received Read now?** appears, select **Yes**.

### To view messages from the Inbox

1 Select **Menu** > **Messaging** > **Inbox**.
2 Scroll to a message and select **View**.

## Multimedia messages (MMS)

Multimedia messages can contain text, pictures, sound and attachments. They are sent using MMS to a mobile phone. You need the correct Internet settings in your phone to use multimedia messages. See *Internet* on page 30.

▪ You must set an MMS profile and the address of your message server. If no MMS profile or message server exists, you can receive all the settings automatically from your network operator or at *www.sonyericsson.com/support*.

### To create and send a multimedia message

1 Select **Menu** > **Messaging** > **Write new** > **Multimedia msg**.
2 Enter text. To add items to the message, press ⊛, scroll using ⊛ or ⊛ and select an item.
3 To preview the multimedia message before sending it, press ⊛ and select ▣.
4 When the message is ready, select **Cont.**. If the message consists of more than one slide, select **Yes** to preview or select **No** to skip the preview.
5 Select **Contacts look-up** and select a recipient.
6 Select **Send**.

▪ Sending and receiving phones must have subscriptions that support multimedia messaging.

# Walkman™

1 Press ⦿ and select **Options** > **My music**.
2 Browse by artist, album, track or playlist. Scroll to a list and select **Open**.
3 Scroll to a title and select **Play**.

• When in **Play view**, press ▶II.

## Transferring music
You can transfer music from your computer to your phone memory or Memory Stick Micro™ (M2™). There are two ways to connect the phone to a computer:
• using a USB cable
• using a Bluetooth™ wireless technology connection
You can drag and drop files between your phone or memory card and a computer in Microsoft® Windows Explorer. You can get more information about transferring files to your phone at *www.sonyericsson.com/support*.

⚠ You may have to purchase a USB cable separately.

1 Make sure your phone is turned on.
2 Connect the USB cable to your phone and the computer.
3 **Phone**: select **File transfer**.
4 **Computer:** Wait for the drivers to be installed (this is done automatically). The first time you connect your phone to the computer, you may need to identify and name the phone.

## To transfer files in file transfer mode using a USB cable

⚠ Do not remove the USB cable from the phone or computer during transfer, as this may corrupt the memory card and the phone memory. You cannot view the transferred files in your phone until you have removed the USB cable from the phone.

1 Connect the USB cable to the phone and the computer.
2 **Phone**: Select **File transfer**.
3 **Computer**: Wait until the phone memory and memory card appear as external disks in Microsoft Windows Explorer.
4 **Computer**: On the computer desktop, double-click the My Computer icon.
5 **Computer**: To view the phone memory and memory card folders, double-click the icon representing your phone.
6 Copy and paste your file, or drag and drop it, into a folder on your computer, in your phone memory or on your memory card.
7 To safely disconnect the USB cable, right-click the Removable Disk icon in Windows Explorer and select Eject.

# Playlists

You can create playlists to organise your music.

## To create a playlist

1 Press ⬤ and select **Options** > **My music** > **My Playlists** > **New playlist**.
2 Enter a name and select **OK**.
3 Scroll to a track and select **Mark**.
4 Select **Add** to add the track to the playlist.

## To add tracks to a playlist

1 Press 🎵 and select **Options** > **My music** > **My Playlists**.
2 Open a playlist and select **Options** > **Add media**.
3 Mark the tracks you want and select **Add**.

💡 You can also add all the tracks in a folder to a playlist by marking the folder and then selecting **Options** > **Add**.

## To remove tracks from a playlist

1 Press 🎵 and select **Options** > **My music** > **My Playlists**.
2 Open a playlist and scroll to a track.
3 Press ⎗ and select **Yes**.

## To control the Walkman™ player

• Press 🎵 to open the Walkman™ player.
• Press ▶❚❚ to play or stop the current music file.
• Press ▶▶❙ to go to the next music file.
• Press ❙◀◀ to go to the previous music file.
• Press and hold down ▶▶❙ or ❙◀◀ to fast forward or rewind.
• Press ⬆ or ⬇ to view and scroll files in the current playlist.
• Press the volume key up or down to change the volume.
• Select **Back** to minimise the Walkman™ player during playback.
• Press 📞 to exit and return to standby.

# TrackID™

TrackID™ is a music recognition service. You can search for title, artist and album name for a track you hear playing through a loudspeaker or on the radio.

! You need the correct settings for Java and Internet in your phone to use this function. See *Internet* on page 30. For cost information contact your service provider.

To search for track information
- When you hear a track through a loudspeaker, select **Menu** > **Entertainment** > **TrackID™** > **Start**.
- When you hear a track through the radio on your phone, from the radio view select **Options** > **TrackID™**.

# Video player

You can view and manage video clips in your phone.

To view a video clip
1 Select **Menu** > **Entertainment** > **Video player**.
2 Scroll to a video clip and select **Play**.

# Radio

Your phone has a radio and the handsfree works as an antenna.

! Do not use your phone as a radio in places where this
is prohibited.

To turn on the radio
**1** Connect a handsfree to the phone.
**2** Select **Menu** > **Entertainment** > **Radio**.

To search for channels automatically
• When the radio is playing, press ⊙.

To search for channels manually
• When the radio is playing, press ⊛ or ⊛.

To save channels
**1** When you have found a radio channel, select **Options** >
**Channels** > **Save**.
**2** Scroll to a position and select **Insert**.

⋅ٜ⋅ You can also save channels in positions 1 to 9 by
pressing and holding down ⟨1⟩ - ⟨9⟩.

To select saved channels
**1** When the radio is playing, select **Options** > **Channels** >
**Channel list**.
**2** Select a radio channel.

⋅ٜ⋅ You can also select channels saved in positions 1 to
9 by pressing ⟨1⟩ - ⟨9⟩.

### To record from the radio

**1** To set record quality, select **Menu** > **Entertainment** > **Radio** > **Options** > **Settings** > **Record quality** and select an option.

**2** Select **Options** > **Record radio** to start.

**3** Select **Save** to save the recording.

**4** To access the radio recordings, select **Options** > **My radio recs**.

❗ This service is not available in all countries.

### To minimise the radio

• When the radio is playing, select **Back**.

### To turn off the radio

• When you are in radio play view, press ⬦ or select **Options** > **Turn off**.

### To view radio options

• When the radio is playing, select **Options**.

# Imaging

## Camera and video recorder

You can take photos and record video clips to view, save or send. Photos and video clips are automatically saved in the phone memory.

💡 You can save photos and video clips on a memory card by selecting **Camera** > **Options** > **Save to** > **Memory card**.

### To take a photo

**1** Select **Camera** and scroll to 📷.

**2** Select **TakePic**. The photo is automatically saved in JPEG format.

-ˈⱷ- To avoid a blurred photo, use a support or the self-timer.

### To change camera settings
**1** Select **Camera** > **Options**.
**2** Select an item and change settings.

### To send a saved photo
**1** Select **Menu** > **Organiser** > **File manager** > **Camera album**.
**2** Scroll to a photo and select **Options** > **Send**.
**3** Select an option.

-ˈⱷ- See *To send an item using the Bluetooth function* on page 30. See *To create and send a multimedia message* on page 21.

### To record a video clip
**1** Select **Camera** and scroll to ▤.
**2** Select **Record** to start recording.
**3** To stop recording, select **Stop**. The video clip is automatically saved.

❗ Do not record with a strong light source in the background.

### To view video clips
**1** Select **Menu** > **Organiser** > **File manager** > **Videos**.
**2** Scroll to a video clip and select **Play**.

-ˈⱷ- You can also find video clips in **Entertainment** > **Video player**. Scroll to a video clip and select **Play** to view it.

## Transferring photos and video clips

You can use Bluetooth™ wireless technology and the USB cable to transfer photos and video clips between your computer and phone. For more information, see *Bluetooth™ wireless technology* on page 29 and *To transfer files in file transfer mode using a USB cable* on page 23.

# Bluetooth™ wireless technology

Bluetooth™ wireless technology makes wireless connection to other Bluetooth™ devices possible, for example, a Bluetooth™ headset. You can connect to several devices at the same time or exchange items.

> A range within 10 metres (33 feet), with no solid objects in between, is recommended for Bluetooth™ communication.

To turn on the Bluetooth™ function
- Select **Menu** > **Settings** > **Connectivity** > **Bluetooth** > **Turn on**.

> Some countries do not allow you to use Bluetooth™ wireless technology.

To show or hide your phone
- Select **Menu** > **Settings** > **Connectivity** > **Bluetooth** > **Visibility** > **Show phone** or **Hide phone**.

> If set to hide, other devices will not be able to identify your phone using Bluetooth™ wireless technology.

### To pair the phone with a device
**1** To search for available devices, select **Menu** > **Settings** > **Connectivity** > **Bluetooth** > **My devices** > **New device**.
**2** Select a device from the list.
**3** Enter a passcode, if required.

⚠ Make sure that the device you want to pair your phone with has the Bluetooth™ function activated and Bluetooth™ visibility set to **Show phone**.

### To pair the phone with a Bluetooth handsfree
**1** Select **Menu** > **Settings** > **Connectivity** > **Bluetooth** > **Handsfree** > **My handsfree** > **New handsfree**.
**2** Scroll to a device and select **Add**.

### To receive an item
**1** Turn on the Bluetooth function and set the **Visibility** to **Show phone**.
**2** When you receive an item, follow the instructions that appear.

### To send an item using the Bluetooth function
**1** Select, for example, **Menu** > **Organiser** > **File manager** > **Camera album**.
**2** Scroll to an item and select **Options** > **Send** > **Via Bluetooth**.

# Internet

You need the correct Internet settings in your phone. If the settings are not in your phone, you can go to

*www.sonyericsson.com/support* on a computer for more information.

> ❗ Make sure you have a phone subscription that supports data transmission in your phone.

1 Select **Menu** > **Settings** > **Connectivity** > **Internet settings** > **Connect using:**.
2 Select an account.

1 Select **Menu** > **Internet** > **Options** > **Go to**.
2 Select an option.

• When you are browsing, press ⌔.

# More features

## File manager

You can handle files saved in the phone memory or on a memory card. You can create subfolders where you can save your files.

1 Select **Menu** > **Organiser** > **File manager**.
2 Find a file in a folder and select **Options** > **Information**.

1 Select **Menu** > **Organiser** > **File manager**.
2 Find a file in a folder and select **Options** > **Manage file**.
3 Select **Copy** or **Move**.

• Select **Menu** > **Organiser** > **File manager** > **Options** > **Memory status**.

# Voicemail

If your subscription includes an answering service, callers can leave a voicemail message when you cannot answer a call.

To enter your voicemail number
1 Select **Menu** > **Messaging** > **Settings** > **Voicemail number**.
2 Enter the voicemail number that you get from your service provider and select **Save**.

To call your voicemail service
• Press and hold down ⬭1⬭.

# Alarms

You can set a sound or the radio as an alarm signal. The alarm sounds even if the phone is turned off.

To set the alarm
1 Select **Menu** > **Organiser** > **Alarms**.
2 Scroll to an alarm and select **Edit**.
3 Scroll between the tabs, set the time, the alarm signal and other information if needed.
4 Select **Save**.

⚠ Keep the handsfree inserted when you select radio as alarm signal. The radio signal sounds through the loudspeaker.

To silence the alarm
1 When the alarm sounds, press any key.

**2** To repeat the alarm, select **Snooze**.

# Torch

### To use the torch
- To turn on the torch, select **Menu** > **Organiser** > **Torch**.
- To turn off the torch, select **Back**.

# Ringtones and themes

Themes are used to change the appearance of the screen.

### To set the ringtone volume
**1** Select **Menu** > **Settings** > **Sounds & alerts** > **Ring volume**.
**2** Press  or  to change the volume.
**3** Select **Save**.

### To set a ringtone
**1** Select **Menu** > **Settings** > **Sounds & alerts** > **Ringtone**.
**2** Find and select a ringtone.

### To set the vibrating alert
**1** Select **Menu** > **Settings** > **Sounds & alerts** > **Vibrating alert**.
**2** Select an option.

### To set a theme
**1** Select **Menu** > **Settings** > **Display** > **Themes**.
**2** Scroll to a theme and select **Set**.

### To use a photo as wallpaper
**1** Select **Menu** > **Organiser** > **File manager** > **Camera album**.

**2** Scroll to a picture and select **Options** > **Use as** > **Wallpaper**.

# Keypad lock

You can set this lock to avoid accidental dialling. Incoming calls can be answered without unlocking the keypad.

☀ Calls to the international emergency number 112 can still be made.

**1** Select **Menu** > **Settings** > **General** > **Security** > **Auto keylock**.
**2** Select an option.

# SIM card lock

This lock only protects your subscription. Your phone will work with a new SIM card. If the lock is on, you have to enter a PIN. If you enter your PIN incorrectly three times in a row, the SIM card is blocked and you need to enter your PUK (Personal Unblocking Key). Your PIN and PUK are supplied by your network operator.

**1** When **PIN blocked. To unblock, enter your PUK code provided by your network operator.** is displayed, enter your PUK and select **OK**.
**2** Enter a new PIN and select **OK**.
**3** To confirm, re-enter the new PIN and select **OK**.

**1** Select **Menu** > **Settings** > **General** > **Security** > **PIN codes** > **SIM protection** > **Protection** > **On**.
**2** Enter your PIN and select **OK**.

### To edit the PIN

1  Select **Menu** > **Settings** > **General** > **Security** > **PIN codes** > **SIM protection** > **Change PIN**.
2  Enter your PIN and select **OK**.
3  Enter a new PIN and select **OK**.
4  To confirm, re-enter the new PIN and select **OK**.

# Phone lock

The phone lock protects the phone against unauthorised use if it is stolen and the SIM card is exchanged. You can change the phone lock code (which is 0000 by default) to any four-to-eight-digit personal code. If the phone lock is set to **Automatic**, you do not need to enter your phone lock code until a different SIM card is inserted in the phone.

### To use the phone lock

1  Select **Menu** > **Settings** > **General** > **Security** > **PIN codes** > **Phone protection** > **Protection**.
2  Select an option.
3  Enter the phone lock code and select **OK**.

### To change the phone lock code

1  Select **Menu** > **Settings** > **General** > **Security** > **PIN codes** > **Phone protection** > **Change code**.
2  Enter the old code and select **OK**.
3  Enter the new code and select **OK**.
4  Repeat the code and select **OK**.

### To unlock the phone

1  Select **Menu** > **Settings** > **General** > **Security** > **PIN codes** > **Phone protection** > **Protection** > **Off**.
2  Enter your phone lock code and select **OK**.

# Troubleshooting

Some problems require you to call your network operator, but you can correct most problems yourself. Remove the SIM card before handing your phone in for repair. For more support, go to *www.sonyericsson.com/support*.

Restart your phone every day to free memory. Do a Master reset if you are having problems with memory capacity or if the phone is working slowly.

## Master reset

If you experience problems with your phone, such as screen flickering, screen freezing or navigation problems, you should reset the phone.

To reset the phone
- Select **Menu** > **Settings** > **General** > **Master reset** and select an option.

**Reset settings** resets all changes that you have made in your phone to default.
**Reset all** deletes all user data such as contacts, messages, pictures and sounds in your phone.
