## THANK YOU FOR PURCHASING THIS CAR DVD PLAYER.

Before operating the unit, read this manual thoroughly and keep it handy for future reference .

To avoid injury or accident , read the following precautions before installing and operating the unit .

## **ON INSTALLATION**

- DO NOT install any receiver in locations where;
- it may obstruct the steering wheel and gearshift lever operations, as this may result in a traffic accident.
- it may obstruct the operation of safety devices such as air bags, as this may result in a fatal accident.
- it may obstruct visibility.
- DO NOT operate any receiver while manipulating the steering wheel, as this may result in a traffic accident.
- The driver must not watch the monitor while driving.
- IF THE DRIVER watches the monitor while driving, it may lead to carelessness and cause an accident.
- IF YOU NEED to operate the receive while driving, be sure to look ahead carefully or you may be involved in a traffic accident.
- IF THE PARKING BRAKE is not engaged." ParkingBrake" flashes on the monitor, and no playback picture will be shown.

- This warning appears only when the parking brake wire is connected to the parking brake system built in the car (refer to the wiring diagram)

## ABOUT THE LIQUID CRYSTAL DISPLAY (LCD) PANEL

Do not press too firmly on the LCD panel on the unit as doing so can distort the picture or cause a malfunction . The picture may become unclear , or the LCD panel may be damaged .

## NOTES ON CLEANING

-Clean the LCD panel with a slightly damp soft cloth.

-Do not use solvents such as benzine, thinner, commercially available cleaners or antistatic spray .

-Do not use alcohol to clean the screen .

If your car was parked in a cold or hot place, the picture may not be clear . The monitor is not damaged . The picture will become clear the temperature in your car becomes normal .

## Safety Information

### CAUTION:

THIS DVD PLAYER IS A CLASS I LASER PRODUCT. HOWEVER THIS DVD PLAYER USES A VISIBLE/INVISIBLE LASER BEAM WHICH COULD CAUSE . HAZARDOUS RADIATION EXPOSURE IF DIRECTED. BE SURE TO OPERATE THE DVD PLAYER CORRECTLY AS INSTRUCTED.

USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.DO NOT OPEN COVERS AND DO NOT REPAIR YOURSELF. REFER SERVICING TO QUALIFIED PERSONNEL.

#### WARNING:

TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS EQUIPMENT TO RAIN OR MOISTURE.

TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, AND ANNOYING INTERFERENCE, USE ONLY THE RECOMMENDED ACCESSORIES.

THIS DEVICE IS INTENDED FOR CONTINUOUS OPERATION.

## **COPYRIGHT PROTECTION**

This product incorporates copyright protection technology that is protected by method claims of certain U.S. Patents and other intellectual property rights owned by Macrovision Corporation and other rights owners.Use of this copyright protection technology must be authorized by Macro vision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

#### **REGION MANAGEMENT INFORMATION:**

This DVD Player is designed and manufactured to respond to the Region Management Information that is recorded on a DVD disc. If the Region number described on the DVD disc does not correspond to the Region number of this DVD Player, this DVD Player cannot play this disc.

# Disc formats supported by this player

DVD	DVD	Audio and Video Disc size 12 cm
VCD		Audio and Video Disc size 12 cm
CD		Audio Disc size 12 cm
MP3	< <u>MP</u> 3>	Audio Disc size 12 cm

## Discs which cannot be played with this player

- DVD-RAM
- CDV
- CDG

## Handling and Cleaning

- Dirt, dust, scratches and warping disc will cause misoperation.
- Do not place stickers or make scratches on discs.
- Do not warp discs.
- A disc should always be kept in its case when not in use to prevent from damaging.
- Do not place discs in the following places:
  - 1.Direct sunlight
  - 2.Dirty, dusty and damp areas
  - 3.Near car heaters
  - 4.On the seats or dashboard

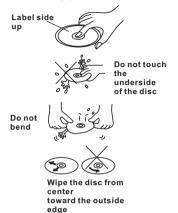

## **Disc Cleaning**

Use a dry soft cloth to wipe the surface. If the disc is quite dirty, use a soft cloth slightly moistured with isopropyl (rubbing) alcohol. Never use solvents such as benzine, thinner or conventional record cleaners as they may mar the surface of the disc.

#### Note:

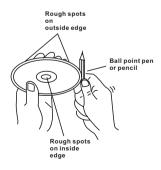

A disc may become somewhat scratched (although not enough to make it

unusable) depending on your handle it and conditions in the usage environment. Note these scratches are not an indication of any problem with the player.

## Preparing New Discs with Rough Spots

A new disc may have rough edges on its inside and outside edges. If a disc with rough edges is used, the proper setting will not be performed and the player will not play the disc. Therefore, remove the rough edges in advance by using a ball point pen or pencil as shown on the right. To remove the rough edges, press the side of the pen or pencil against the inside and outside edges of the disc.

## Installation

### NOTES:

Choose the mounting location where the unit will not interfere with the normal driving function of the driver.

Before finally installing the unit, connect the wiring temporarily and make sure it is all connected up properly and the unit and the system work properly.

Use only the parts included with the unit to ensure proper installation. The use of unauthorized parts can cause malfunctions.

Consult with your nearest dealer if installation requires the drilling of holes or other modifications of the vehicle.

Install the unit where it does not get in the driver's way and cannot injure the passenger if there is a sudden stop, like an emergency stop.

If installation angle exceeds  $30^{\circ}$  from horizontal, the unit might not give its optimum performance.

Avoid installing the unit where it would be subject to high temperature, such as from direct sunlight, or from hot air, from the heater, or where it would be subject to dust, dirt or excessive vibration.

## DIN FRONT/REAR-MOUNT

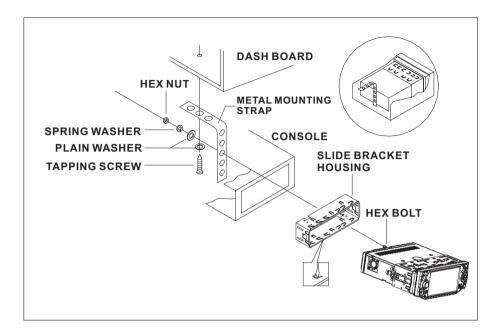

This unit can be properly installed either from "Front"(conventional DIN Front-mount) or "Rear"(DIN Rear-mount installation, utilizing threaded screw holes at the sides of the unit chassis). For details, refer to the following illustrated installation methods.

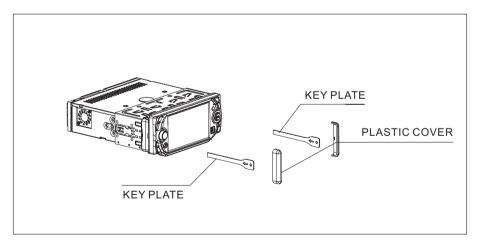

## USA/EURO FREQUENCY SWITCH

On the right of this device, there is a USA/EURO frequency switch, you can select the desired radio frequency before installing .

**USA/EURO** Frequency Switch (radio frequency switch for selecting between the USA and EUROPE frequency band.)

If you want to take CHASSIS out of the SLIDE BRACKET HOUSING, first remove the PLASTIC COVER of the both sides away, then insert the two KEY PLATE into left and right side of chassis as above illustration.

## How To Remove And Install The Front Panel

When detaching or attaching the control panel, be careful not to damage the connectors on the back of the control panel and on the panel holder.

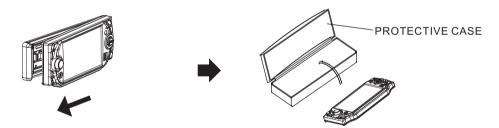

### **Detaching The Front Panel**

Before detaching the control panel, be sure to turn off the power.

1). Press the release button and the left hand side of the front panel will release.

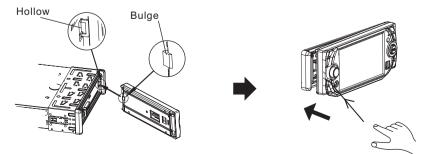

2). Pull-off the front panel and keep the front panel into the case .

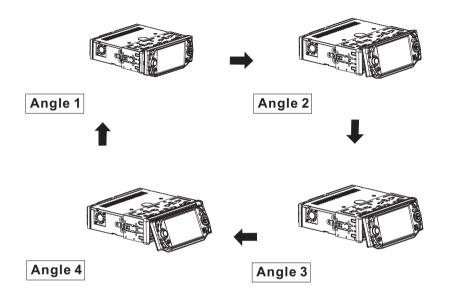

#### Attaching The Front Panel

First insert the right hand side of the front panel into the hollow of the unit .
 (NOTE : the "bulge" point on the panel must be attached into the hollow of the unit .)
 Gently push the left hand side of the front panel until you feel a " Click".

## CHANGING THE CONTROL PANEL ANGLE

When you want to change the viewing angle of the operating unit to play, you can touch the section on touch screen (or press the button on the front panel) repeatedly to select the desired angle as follows:

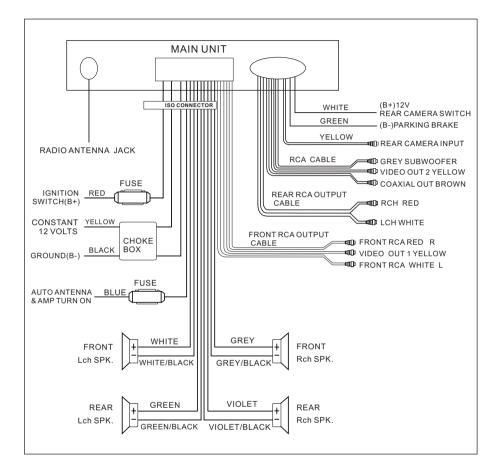

## Caution:

Do not insert your finger behind the control panel.

## **Electric Connection**

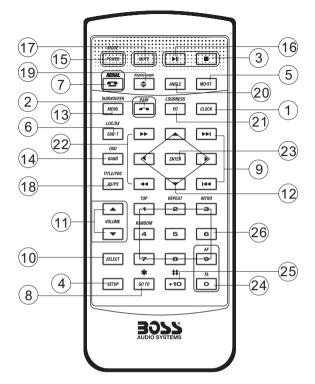

## WIRING CONNECTION

Note :

The "PARKING BRAKE" wire must be connected to the parking brake system of your car. When the parking brake is engaged, the LCD screen will be allowed to view your video. If not, the screen will produce an image saying,

"PARKING BRAKE" This is a safety feature designed for the driver not to watch a video while driving. The video output on this unit is not affected by this.

Ref #	Button	Function
1	CLOCK	Press it briefly to view the clock time , Press again to return to normal display mode . Press longer to set the time .
2	PAIR/~	Press it to use the Bluetooth function , refer to the page 33 .
3	STOP	Press once to pause playback. Press PLAY/PAUSE to resume playback. Please note: if you press STOP twice, playback will start at the beginning of the disc.
4	SETUP	Press this button to open the SETUP menu.
5	MO/ST (AUDIO)	In Radio mode, press this button to change between Mono and Stereo reception modes (when a station is weak, sometimes switching to Mono will improve sound quality). In Disc Playback mode, pressing this button opens the AUDIO setup menu for making changes to the way the soundtrack is reproduced.
6	SUBTITLE LOCAL/ DISTANT	In DVD Disc Playback mode, pressing this button will allow you to change the subtitle language on discs which have this as an option. In Radio mode, press this button to change the radio reception sensitivity in stations are near or far.
7	Redial/🚗	Press this button to use the Bluetooth function, refer to page 33.

Ref #	Button	Function	
8	GOTO <del>X</del>	Press it button to begin playback at a moment in the program you designate. Use number buttons to enter the data that is needed. In Bluetooth menu, it serves as the $\times$ button on your mobile handset.	
9	₩ / ₩	Press these buttons to skip ahead or back one track. (Note: In DVD mode, press continually the 🛤 twice to skip back one)	
10	SELECT	Press this button repeatedly to cycle through the various audio and video adjustments you can make: Volume, Bass, Treble, Balance, Fader, Color, Brightness, Contrast and Tint.	
11	VOL+/-	Use these controls to adjust the volume level.	
12	<b>◀/▶/▲/▼</b>	Press to navigate the various menus present in the product.	
13	Menu SubWoofer	Press this button briefly to display the root level directory of a DVD disc. Press and hold this button to turn on or off the SUBWOOFER output.	
14	BAND (OSD)	In Radio mode, press this button repeatedly to switch between the five radio bands: FM1 > FM2 > FM3 > AM1 > AM2. In Disc Playback modes, Press this button to see information about the disc currently in play.	
15	MOD POWER	Press this button to turn the unit ON , press and hold to turn the unit OFF. Press it briefly to select the Disc, Radio , AUX In , BT Music mode.	
16	PLAY/ PAUSE	In Disc Playback mode, press to pause playback. Press again to start where playback stopped.	
17	MUTE	Press this button to turn off the audio. Press again to restore the sound to its prior volume level.	
18	TITLE/ PBC(A/P)	When playing a DVD, pressing this button will open the TITLE menu which is recorded on the DVD. When playing a VCD disc, press this button to create a PBC (Playback Control) menu for the disc to assist in making playback selections. In Radio mode, press and hold this button to start the Auto-Program mode, during which the tuner will scan for all strong stations and assign them to the radio preset buttons.	
19		Press this button to adjust the screen viewing angle (see page 8).	
20	ANGLE	For DVD discs which have alternate viewing angles encoded, when you see the "angle mark" symbol advising you that these angles are available, press this button to see them.	
21	EQ/LOUD	Press repeatedly to cycle through the different equalizer curve presets you may wish to use for enhanced listening.	
22	▶/ ◀	In Disc Playback mode, press for fast forward/reverse playback.	

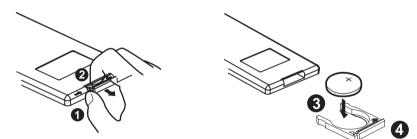

## **Remote Control**

Ref #	Button	Function	
23	ENTER	This button is used to confirm selections and settings within many of the menus in the OSD system.	
24	0-9	These buttons are used for numeric entry in many different menus. In addition, in Radio Mode (when RDS is engaged), 0 serves as the TA button and 9 serves as the AF button.	
25	+10/#	This button is used with the other number buttons for use with two-digit number entries. In Bluetooth menu, it serves as the <i>#</i> button on your mobile handset.	
26	1-6	Six numbered preset buttons store and recall stations for each band	

## Preparing the Remote Control

### **Inserting the Batteries**

- 1.First push to inside as the direction indicated by the arrow (See 1) And then Remove the battery holder as the direction indicated by the arrow (See 2).
- 2.Replace the battery Set a new battery property with (+)side up as illustrated (See (S)).
- 3.Insert the battery holder. Push in the holder to the original position(See 4).

#### **Using the Remote Control**

Face the remote control towards the player front face IR mark (remote control signal receiver).

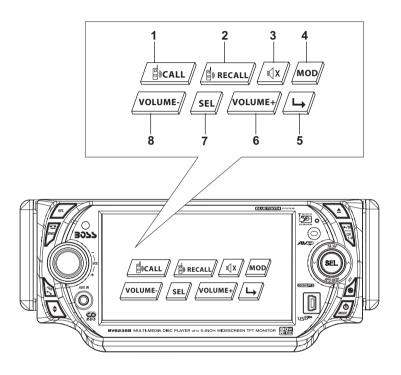

Operation angle: About  $\pm$  30 degree in each the direction of the front of the IR mark.

#### Note :

The lithium cell in the battery compartment of remote control has been secured for transport with a foil . Before initial use please remove this foil so that the remote control is ready for operation .

## **Key Functions**

## Touch Panel

## Touch Screen Key :

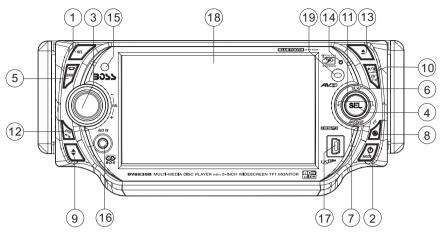

- 1. CALL : Answer a call
- 2. Reject a call
- 3. <a>X</a> : Mute function
- 4. MOD : Select input mode
- 5. → : Previous
- 6. Volume+ : Volume adjustment (+)

7. SEL : Select the menu of the Sound/Picture

# 8. Volume- : Volume adjustment (-)

## **Control Panel**

## Unit Keys :

### 1. REL BUTTON

Press this button to release the front panel for removal . Refer to see page 7.

### 2. Ů (POWER On/Off)/MOD BUTTON

Press it to switch the device ON, press and hold (approximately 2 seconds) to switch the device OFF. During the playback mode, you can press it to select an input mode by pressing repeatedly until proper one is found:

AUX IN > RADIO > DISC > BT MUSIC

If you are in USB playback mode and want to select the DISC mode, press the STOP button and then press the GOTO button.

#### 3. VOL+/ VOL- KNOB

In normal mode, this knob is used to increase or decrease the volume. It is also sed as an UP/DOWN knob when audio or video settings are being adjusted when accessed using the SELECT button.

#### 4. SELECT KNOB

To access the available adjustment settings for audio and video, press this knob repeatedly to cycle through and select them:

```
→ Buzzer → Volume → Bass → Treble → Balance → Fader —
— Tint ← Contrast ← Bright ← Color ← Bluetooth _____
```

## 5. BAND/ 🖨 BUTTON

In Radio mode, press it repeatedly to select the desired radio band: FM1, FM2, FM3, AM1(MW1), AM2(MW2).

**In Bluetooth menu,** press this button to end the telephone call or reject the incoming telephone call , please refer to see page 33.

#### 6. TA/AF BUTTON

## Automatic Memory Storing & Program Scanning

## Automatic Preset Setup

APS In Radio Mode, Touch and keep the "APS" section on the touch screen for more than two seconds to active automatic station storage. The radio searches within the current frequency band, e.g. FM1, for stronger signal level until the search cycle has finished. The six strongest stations are then allocated to the corresponding storage locations. Then the station of the first storage location is set.

## Scan Function

In Radio mode, briefly touch the " **APS** "section on touch screen the radio briefly plays all the

preset stations of the frequency band .

## **RDS FUNCTION**

In Radio mode, touch it to select the desired item, it will display the following as below :

#### TA Traffic Annonuncement (priority For Traffic Information)

TA In Radio mode, touch the TA section briefly to activate the TA function. Touch it again to turn off

the TA function .When the TA function is activated, the TA symbol appears in the display .

## **Radio Operation**

During radio operation in one FM frequency band the search for a traffic announcement station is started automatically (TA SEEK).

If an FM station is being received which transmits the latest traffic announcements from time to time, the TP display lights up.

When the TA function is switched on, the FM traffic automatically interrupt CD operation(the word TRAFFIC appears in the display).

The volume level is increased to the minimum value for the transmission of traffic announcements.

After the traffic announcements has finished, the program that was previously running is resumed.

Interruption of the TA Function: if you would like to interrupt the current traffic announcement, touch the TA section on screen briefly. This does switch off the TA mode.

#### AF FUNCTION

(Alternative Frequencies)

In Radio mode, touch the AF AF section briefly to activate the AF function. Touch it again to turn off վհղ the AF function.

AF is a function that works with the help of RDS (Radio Data System) and can only be used with FM stations. The radio searches in the background for the best frequency reception of the station that has been tuned into .

Touch and hold (for more than 2's )the screen of "AF" section, the AF function is activated. The AF symbol appears in the display.

When the AF function has been switched on, the radio continuously tests the signal strength of the AF frequency. The test interval for each AF frequency depends on the signal strength of the current station and varies from a few minutes in the case of weak signals.

Whenever the new AF frequency is stronger than the station that is currently tuned in , the radio switched to this frequency for a short time for a short time and the message

"NEW FREQUENCY" " is displayed for one or two seconds.

#### Note:

the status of the AF function is shown by an AF symbol in the display.

- If the AF symbol appears in the display, the AF function is switched on and RDS transmission date is being received.
- If the AF symbol flashes in the display. the AF function is selected but no RDS signal can be received at the moment.

#### **PTY FUNCTION**

**PTY** In Radio mode, touch the PTY

section briefly (or press and hold the MUTE/PTY button on the front

Jh panel), to select the Program type.

#### PTY Selection of the program type

besides the stations name, some FM stations also transmit information on the type of program. This information can be displayed by your car radio.

Examples of such types of program are :

#### SPORT NEWS POP WEATHER ......

With PTY function you can specifically select stations transmitting a particular type of program. Touch the PTY range on screen repeatedly to call up the PTY selection menu. The message "PTY SEEK" then appears briefly in the display.

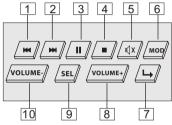

when PTY has been selected the radio starts searching for corresponding PTY information and stops when the PTY information has been found, "NO PTY" appears in the display. If the PTY information being searched for no longer exists, the PTY function automatically switches to normal mode.

## **DISC Operation**

## **Basic Operation**

During DISC playback, you can touch the screen to display the following :

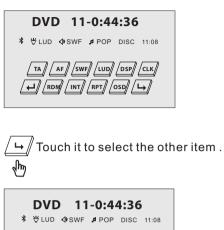

1.Previous	7.To next page
2.Next	8.Volume+(adjustment+)
3.Pause	9.Select
4.Stop	10.Volume-(adjustment-)
5.Mute	
6.Mode	

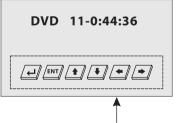

→ Touch it to select the other item .

<u>Above these operation buttons for DVD setup.</u>

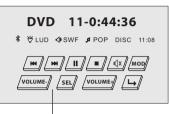

Touch it for previous .

## **DISC** Operation

## Switching the DVD mode

Touch the MOD section on the touch screen (or press MOD button ) to select the DISC mode, it display like following :

#### Function setup (different the source the display is different)
