S805

*Get connected in 5 quick steps.*

## USING THE S805

*Before using this product, read the Important Safety and Legal Information pamphlet and follow its instructions.*

You can use your S805 DJ Headphones simultaneously with your Bluetooth audio device and your Bluetooth cell phone.

Listen to music, hear a ring, and transfer to take the call on the headphones. Hang up the call with a push of a button and your music automatically continues playing.

Your S805 supports both Handsfree (HFP) and Headset Bluetooth profiles for calls, and Advanced Audio Distribution (A2DP) and Audio Video Remote Control (AVRCP) profiles for wireless, streaming music.

**1**

### CHARGE

Your Headphones' Battery

- 1 Plug the Motorola charger into the end of the headphones.

Both  and  indicator lights turn on when the battery is charging. It may take up to 1 minute for the indicator lights to turn on. When the headphones' battery is fully charged (about 3 hours), the indicator lights turn off.

- 2 Disconnect the charger

*Note: Headphones are not functional while charging.*

**2**

### START BLUETOOTH FEATURE

Your Phone

Your phone's Bluetooth feature is off by default. To use your headphones, you must turn on the Bluetooth feature in your phone.

For most Motorola phones (at the main menu):

- 1 Press  (**Menu**) > **Settings** > **Connection** > **Bluetooth Link** > **Setup**.

- 2 Scroll to **Power**.

- 3 Select **Change**.

- 4 Scroll to **On**.

- 5 Press **Select** to turn on the Bluetooth feature. The Bluetooth feature remains on until you turn the feature off.

*Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.*

# 3

## PAIR

### Your Headphones and Phone

Before you can use your headphones, you must pair (link) them with your phone first.

#### Step A - PUT THE HEADPHONES IN PAIRING MODE

- 1 Ensure the headphones are turned off (Ⓜ indicator light not blinking).
- 2 Press and hold Ⓜ button. After about 6 seconds, the Ⓜ indicator light becomes steadily lit.
- 3 Release the Ⓜ button. The Ⓜ indicator light remains steadily lit.

If the Ⓜ indicator light is flashing or not steadily lit, repeat **steps 1 through 3** on this page.

## TROUBLESHOOTING

### My phone does not find my headphones.

Make sure the Ⓜ indicator light on your headphones is on and steady when your phone is searching for devices (see step 3).

### My headphones worked with my phone before but now their not working.

Make sure your phone is on and the Bluetooth feature is turned on in your phone (see step 2). If the Bluetooth feature has been turned off or was turned on only temporarily, you may need to restart the Bluetooth feature (see step 2). If you have confirmed the Bluetooth feature is on in your phone, pair your phone and headphones again (see step 3).

## PAIR CONTINUED

### Your Phone and Headphones

#### Step B - SET YOUR PHONE TO LOOK FOR YOUR HEADPHONES

For most Motorola phones:

- 1 On your Motorola phone, press  (Menu) > **Settings > Connection > Bluetooth Link > Handsfree > Look for Devices.**

The phone lists Bluetooth devices it finds.

- 2 Select **Motorola S805**.
- 3 Select **OK** or **Yes** to pair your headphones with your phone.
- 4 Enter the passkey: **0000**
- 5 Select **OK**.

When your headphones successfully pair with your phone, the Ⓜ indicator light changes from steadily lit to rapidly flashing.

*Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.*

# 4

## PAIR

### Your Audio Device and Headphones

To use your headphones for streaming audio, you must pair them with your audio device.

#### Step A - PUT THE HEADPHONES IN PAIRING MODE

Place your headphones in pairing mode. See step A under **3 PAIR Your Headphones and Phone** for details on putting your S805 in pairing mode.

#### Step B - PUT YOUR AUDIO DEVICE IN PAIRING MODE

Place your Bluetooth audio device in pairing mode. See your Bluetooth audio device's user documentation for details on putting device in pairing mode.

#### Step C - PAIR DEVICES

Place headphones and audio device close together while in pairing mode.

When your headphones pair successfully with your audio device, the  indicator light changes from steadily lit to rapidly flashing.

# 5

## TEST AND USE

Verify your **headphones and audio device** work together:

- 1 Place the headphones on your head.
- 2 Start playing music on the audio device.

If your headphones and audio device are successfully paired, you will hear music on your headphones.

Verify your **headphones and phone** work together:

- 1 Place the headphones on your head.
- 2 On your phone, dial the number you want to call and press the **Send** key.

If your headphones and phone are successfully paired, you will hear ringing on your headphones.

After you have successfully paired your headphones and Bluetooth devices, you don't need to repeat steps in this guide.

## USING YOUR S805

See **Features and Functions Guide** on the reverse side for information on using your S805.

The S805 cannot be operated while it is being charged. A fully charged S805 battery provides approximately:

- 17 hours of stereo music listening time
- 20 hours of phone call talk time
- 720 hours of standby time

# Features and Functions Guide

## S805 Bluetooth® DJ Headphones

### IMPORTANT:

Be sure to first follow the

# MOTOSTART

### Quick Start Guide

on the reverse side  
of this guide  
to complete initial setup  
of your S805.

## S805 OPERATION

**To turn your S805 headphones on**, press and hold  button until the indicator light flashes twice. Then, release the button.

**To turn your S805 headphones off**, press and hold  button until the indicator light flashes three times and then turns off.

- When the Bluetooth connection is between the S805 and a phone using Handsfree Profile (HFP) (for call management), only the  indicator light is lit.
- When the Bluetooth connection involves Advanced Audio Distribution (A2DP) (for streaming audio), both  and  indicator lights are lit.
- To disable the indicator lights, long press  and  buttons at the same time. To reenable the indicator lights, also long press  and  buttons at the same time, turn the S805 off and on, or plug charger into the S805.

## MUSIC CONTROLS (RIGHT POD)

**(1) Track Control Wheel.** Allows you to skip forward to the next music track, or skip to the previous music track.

**(2) Play/Pause/Stop Button and Indicator Light .** Allows you to play, pause, or stop music when listening to music over a Bluetooth connection using A2DP and AVRCP profiles. For audio played back through a wired (non-Bluetooth) connection, this button allows mute/unmute of incoming audio. In a call via Bluetooth (Handsfree profile), this button allows mute/unmute of the microphone.

**(3) Microphone.** Used when playing or receiving calls.

## CALL CONTROLS (LEFT POD)

**(4) Call Button and Indicator Light .** Used to answer and end calls. Also used to turn S805 on and off.

**(5) Volume Control Wheel.** Allows you to increase or decrease for music or calls.

**(6) Grommet.** Flexible rubber flap used to cover headphones jack and charging port.

**(7) Charging Port.** When charging, one end of the charger should be inserted into this port.

**(8) Headphones Jack.** Allows you to connect to a non-Bluetooth music source. When using such a device as a music source, plug in one end of the included cable into the music source, and the other end into this receptacle.

## INDICATOR LIGHTS

The indicator light provides information about your S805 headphones status.

### With the Charger Plugged In

Indicator	Status
On (steady)	Charging
Off	Charging complete

### With No Charger Plugged In

Indicator	Status
Off	Power off
On (steady)	Pairing mode
10 rapid flashes	Pairing successful
Slow pulse	Connected (on a call)
Quick flash	Standby (not on call)

## Safety Information: General Use

### USE AT YOUR OWN RISK

#### Avoid Distraction

Using headsets while operating a motor vehicle, motorcycle or bicycle is dangerous, and is illegal in some states. Check your local laws. Use caution while using your Motorola S805 when engaging in ANY activity that requires your full attention. Avoid placing or receiving calls while driving an automobile, motorcycle, equipment or any other motorized mode of transportation to reduce the risk of accident or injury.

#### Avoid Hearing Damage

Using the headset at high volume may result in permanent hearing loss. If you experience ringing in your ear, reduce the volume or discontinue using Motorola S805. With continued use at high volume, your ear may become accustomed to the sound level, which may result in permanent damage to your hearing. Keep Motorola S805 volume at a safe level.

## Caring for the Environment by Recycling

When you see this symbol on a Motorola product, do not dispose the product with household waste.

## Recycling Mobile Phones and Accessories

Do not dispose of mobile phones or electrical accessories, such as chargers or headsets, with your household waste. In some countries or regions, collection systems are set up to handle electrical and electronic waste items. Contact your regional authorities for more details. If collection systems aren't available, return unwanted mobile phones or electrical accessories to any Motorola Approved Service Centre in your region.

## AUDIO TONES

The audio tones provide information about your S805 headphones status.

Audio Tone	Status
Single high tone when turning Volume Control Wheel	Volume at minimum or maximum
Five rapid high tones repeated every 60 sec.	Low battery
No audio indications; deteriorating quality	Out of range
Ring tone	Incoming call
Single high tone	Pairing confirmation/end call
Single low tone	Voice activation
Two tones	Mute on/off
Series of ascending tones	Power on
Series of descending tones	Power off

*Note: While streaming music wirelessly, the low battery tone is played only once.*

## PLAYING MUSIC

### Bluetooth (Wireless) Music Source

Function	Action
Play or Pause music	Short press 
Stop music	Long press 
Adjust music volume	Turn Volume Control Wheel (on left pod) forward (to increase volume) or backward (to decrease volume)
Skip back to previous song	Turn Track Control Wheel (on right pod) all the way backward and release
Skip forward to next song	Turn Track Control Wheel (on right pod) all the way forward and release

### Non-Bluetooth (Wired) Music Source

Function	Action
Mute/unmute music	Short press 

## MAKING CALLS

Function	Action
Make a voice dial call	Short press  and speak the name after the tone
Make a hand dial call from phone	Enter phone number and press Send key
End a call	Short press 
Receive a call	Short press 
Reject a call	Long press 
Redial last call (Voice Dialing ON)	Long press 
Redial last call (Voice Dialing OFF)	Short press  to recall last number, Short press  again to dial last number

*Note: Your S805 headphones support both Handsfree and Headset Profiles. Accessing call functions depends upon which profile your phone supports. See your phone's user's guide for more information.*

## MAKING CALLS *CONTINUED*

Function	Action
Answer a second incoming call	Long press  (places first call on hold)
Toggle between two active calls	Long press  (places active call on hold, activates holding call)
Join a 3-way call	Long press  and  at same time
Put an active call on hold or resume a call on hold	Long press 
Mute or unmute a call	Short press 

*Note: Some features are phone/network dependent.*

*Note: When placing or receiving calls, music playing from a Bluetooth-enabled device is automatically paused. When the call is finished, the music playing is resumed. Music playing from a non-Bluetooth music source is muted when placing or receiving calls, and unmuted when the call is finished.*

*Note: You can control the volume while in a call by rotating the Volume Control Wheel on the left speaker pod.*

## European Union Directives Conformance Statement

 Hereby, Motorola declares that this product is in compliance with:

- The essential requirements and other relevant provisions of Directive 1999/5/EC.
- All other relevant EU Directives.

The above gives an example of a typical Product Approval Number.

You can view your product's Declaration of Conformity (DoC) to Directive 1999/5/EC (to R&TTE Directive) at [www.motorola.com/rtte](http://www.motorola.com/rtte). To find your DoC, enter the product Approval Number from your product's label in the "Search" bar on the web site.
